

## **International Small-Angle Scattering Conference**

18-23 November 2012 | Sydney Australia

### **General Conditions and Guidelines**

#### **General conditions**

- Satellite meetings may have a focus on scientific themes, specific application(s), aspects of instrumentation, specialised method(s) or sample environments but must have a clear association with small-angle scattering.
- The workshop must be coordinated with SAS2012 and is envisioned to last between one to three days.
- It is recommended that organisers for proposed satellite meetings contact the conference secretariat at the earliest opportunity to minimise scheduling conflicts.
- Support from SAS2012 is limited to advertising via the SAS2012 website.

#### **Guidelines for applications**

Please complete the online form including the scope and objectives of the satellite meeting along with a tentative list of invited speakers and expected number of participants. The conference secretariat will contact you to confirm receipt.
